

DDC BSC Team Meets

The Defense Distribution Center (DDC) Balanced Scorecard (BSC) architect team gathered with facilitators from LMI to continue development and refinement of DDC's scorecard metrics and initiatives.

"BSC is a tool for DDC's leadership to set strategies and measure progress," said Bob Hauseman, DDC Strategic Plans. "DDC is transforming distribution and BSC is the road map. BSC frames the enterprise issues and focuses agency dialogue and resources on solutions."

BSC focuses managers on what directly relates to achieving DLA's and DDC's goals. It defines our strategies into specific and measurable actions by setting goals. It also communicates to employees how their individual efforts contribute to DLA's current and future success.

BSC will help DLA and DDC achieve their vision: Right Item, Right Time, Right Place, Right Price. Everytime . . . Best Value Solutions for America's Warfighters.

DDC BSC Architects gather to continue development and refinement of DDC's scorecard metrics and initiatives.

DPMS Moves Forward:

WITH THE STROKES OF TWO PENS, INTRANSIT VISIBILITY FOR THE MILITARY SUPPLY CHAIN TOOK AN EVOLUTIONARY LEAP FORWARD

The Distribution Planning & Management System (DPMS) External Service Provider (ESP) contract was awarded to BearingPoint August 8, 2003. DPMS will provide DLA with real-time access to information on the location and movement of material across the enterprise, DLA Distribution Centers, and vendor locations alike, and the ability to act on that information for planning and management purposes. DPMS will provide shipment optimization, load planning and routing, intransit visibility, automated preparation of transportation documents including the Military Shipping Label, as well as tracking vendor and carrier performance.

The signing ceremony between the Contracting Officer, Robert Tomczak, Defense Supply Center Philadelphia (DSCP), and Tom Seymour, BearingPoint, was witnessed by DDC

Commander BG Kathleen Gainey, USA, DDC Deputy Commander Phyllis Campbell, SES, DDC Directors, representatives from the DLA Systems Integration Office (DSIO-U), HQ DLA, Source Selection Evaluation Board members, and other guests.

"This is such an important moment for the men and women in the military that we serve everyday," said Ms. Campbell. "DPMS is the next logical step in DLA and DDC better serving our customers. We especially want to thank everyone who helped us get to this point and those who will help us move forward."

BearingPoint will team with other commercial firms to accomplish their mission, including: Lockheed Martin, MEB Consulting, Northrop Grumman Information Technology, Thomas & Herbert Consulting LLC.
